

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to the war, and no state bears a better record in that respect than it does. In literature it is rapidly acquiring an enviable place. In war and literature Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M. 2d N. Y. Cavalry and of the 13th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of us old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never used remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and tone up the system wonderfully. We say to all, try these remedies."

-Solomon Yewell, Marion, Ind., Dec. 5, 1822. These remedies are sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, if per bottle, six bottles \$6, express prepaid. They positively contain neither opiates nor dangerous drugs.

WANTS TO RUSH

Voorhees is in Favor of a Speedy Vote,

And Wants the Wilson Bill Pushed Through.

MUST MOVE QUICKLY.

Doesn't Believe Great Reforms Take Lots of Time.

WASHINGTON, April 27 .- [Special.] -In spite of losses and crosses, laps and slams, the friends of the Wilson bill are once more full of hope that it will pass the | the rumor.' senate, and that at a tolerably early day. The word early must be construed according to senatorial custom and may mean any time in June or July. Senator Voorhees declines to make a guess at the day, but talks with a good deal of freedom about the improved chances of the bill. "There is," said he, "a great deal of impatience among the people. In fact, reformers are always an impatient set, especially young ones.

Here is a letter I just received from a young Democratic editor in our state—a kindly letter, but showing great impatience. It is a specimen of many. , I had to write a letter to some of those gentle-men not long ago in which I pointed out to them that the world was not made in a day, although there was no lack of a reliable majority. It is a habit of reformers, and especially American reformers, to want stop to consider that if this congress so much as makes a good start in tariff reform, no matter how small the reduction, it will be a wonderful gain on the situation a few years ago, when it was almost treason to say that the tariff should be reformed at all except upward.

Senator Voorhees Upon Reforms, "You remember all about that great temperance excitement that swept over the west in the early fifties, when they had temperance camp meetings and gatherings of I don't know how many thousands of people in various towns, and you remember how the speakers nearly all predicted that this movement would sweep all before it and abolish the traffic. Plenty of sensible men staked their reputation on predictions that in 10 years there would not be a whisky shop in the state. Well, four times 10 years have past, and it is a matter of dispute whether there are not as many saloons in Indiana in proportion to the people as there were when the Sons of Tem-perance and their allies were making such

"It has been the same way with every reform, but there is no need of our going so slow with this bill. Everybody can see that the Republicans are just talking to postpone action as long as possible, but they may make a mestake about that. The longer this bill is delayed, if it finally becomes a law, the more sudden and stupendous will be the revival of business which follows. Consumptive demand will force it, as the shelves of the merchants are pretty near bare, and it is to be hoped that clothes. In fact, if we have good crops and get any kind of prices for them, there will be a great revival. Be that as it may, howclose when reasonable time has been given. I would vote for a stringent closure rule." A Complicated Problem.

The senate committee on public lands is struggling with a complicated problem, which is a legacy of the old timber culture act and incidentally involves some tolerably prominent men, including such extremes in the political world as Colonel Phil Thompson and "Forerunner" Redstone. It will be remembered that before the limits of fertile and arid land were so well defined as now congress passed a general act granting pretty large areas to all who would plant part in timber and culti-vate for a term of years. The act was so loosely worded that great abuses arose under it, as the methods of proof provided for were very defective, and if construed literally there was scarcely a limit to the amount one man could hold.

On the last day of the Flifty-first congress, therefore, an act was rushed through repealing the timber culture act, but it soon appeared that this timber repeal bill was in some respects as loosely worded as the other, it being defective in providing for disputed claims. It soon appeared that an immense number of contestants would appeal to the land department, and that several of these contests involved the titles to important town sites, as a very large part of the timber culture area was settled with great rapidity. Secretary Noble decided that the repeal of the law put an end to all contests under it: that the contestants had no standing and the men in possession must hold. This gave occasion for a flood of relief bills, and at this session Senator Blackburn introduced a bill to so far amend the repeal act as to give the contestants an inchoate right and a standing in

court. It Made Him a Crank. The vigorous opposition which sprang up and the way in which the bill was advocated soon showed that there was some kind of a combination in its favor. It is alleged that Colonel Phil Thompson and a certain Mr. Butz, formerly a congressman from the south, have organized a lobby for the bill, and the savage opponents of it do not neglect to call attention to the fact that whereas Mr. Butz "was a carpetbag congressman in the darkest days of reconstruction he is now a frantic Democrat in the northwest and is posing as such before the committee." Colonel Redstone only comes in incidentally, but having very little confidence in the Butz combine he has had a bill of his own introduced. He was a settler on the border of the Sequoia park in California, and when the reservation was made it took in his land. He claims that the land was legally open to settlement when he took it, that the troops drove him off with circumstances of aggravation, and that his implements of improvement were a total loss.

Since these facts have transpired some people think that was the main cause of his coming a crank. It is chiefly of interest now because everything relating to Coxey and his lieutenants is eagerly read. The committee is at present disposed to favor the bill securing right of contest, but the battle of the opposing interests continues in the intervals of the tariff debate. Senators Kyle and Pettigrew have introduced bills for sending out an agent or commis-

sion to decide each case on its merits.

The bill introduced and supported by Senator Dolph provides for a rather radical change in the whole public land system and makes special provisions for preserving all forests yet owned by the government.

A FAT JOB FOR DAVID.

It is Reported He Has Been Offered a \$20,000 Position.

A sensation was created in local political circles today by the statement that David Overmyer has been offered the position of register of deeds for the District of Columbia.

Mr. Overmyer is in Minnesota on legal business. His law partner, S. B. Isenhart, said: "I don't know anything about it. I have heard the report but do not think it authentic. I don't think he has been tendered the position and don't think he would arcent it. He don't think he would accept it. He has not been an applicant for the position and is now in Minneapolis on business. I would proba-bly know if there were any grounds for

This is the office to which the colored Democrat, C. H. J. Taylor, of Kansas City, Kansas, was appointed by Presi-dent Cleveland. The senate committee has reported unfavorably on Taylor's appointment, and it is thought that some other western man will be named.

Mr. Overmyer would be given the indorsement of all Kansas Democrats. The place is a lucrative one paying \$20,-

000 a year, it is said. Ex-Attorney General Ives said: "I don't know much about if. I have heard such a report, but know nothing about its authenticity. John Martin is trying to get Overmyer out of Kansas politics. He is a thorn in Martin's side and Martin would like to get rid of him, by putting him into the position of register of

HELD FOR MURDER,

Friends of Donahue, the Ottawa Dead Indian, Cause His Murderers' Arrest.

OTTAWA, April 26. - The friends of the late Walter Donahue, whom a coroner's jury decided was justifiably killed by Frank Pitman, have been dissatisfied with the findings of the jury, and have instituted action against both Pitman and Hockensmith before Justice Rice. Today warrants were sworn out by Mrs. Maude Donahue, wife of the deceased, for Frank Pinnan and D. Hockensmith, charging them with the "unlawful, fe-lonious, willful, deliberate and premedi-tated killing and murdering" of Walter

Donahue.
Mr. Pitman was at school when the warrant was served and Mr. Hocken-smith chanced to be in the city so that service was easily made on him. They appeared before Justice Rice, waived examination, and were put under a bond of \$1,000 each.

Both gentlemen welcome the prosecution, as there is no possibility of other results than as foreshadowed by the finding of the coroner's jury, and it will for-ever remove possibility of future trouble should the case proceed no further now.
